

SPRINGTIME GREETINGS TO ALL

- Another very busy year for the Rec Site with record numbers of users.
- Plowing of all the parking lots is done essentially by FORRS contractor (Simms). His crew has plowed 12 times this year and has done a great job. YRB has provided some help but only when they are available. Our contractor is paid by your donations - so far this winter the total is approx \$1,500 donations of the \$5,100 required. Many thanks to those who have made donations - it is greatly appreciated. But we need more - please use www.rosslandrange.org or the Donation Box at the Main Kiosk - thank you.
- Per RS&T BC guidelines, the cabins remain CLOSED. Please respect this directive.
- www.rosslandrange.org, our website, has been recently updated so it's easier to navigate. Thanks to Les, Rob, Kim and especially Sheree. Be sure to check out the great new cabin page!
- Once the Rec Site is snow free our summer projects will begin. This summer the Crowes Nest Cabin will be rebuilt, hopefully the Murphy Creek Parking will be expanded, the Accessible trail will get some finishing touches, and new signage on the Main Kiosk and the historic Old Glory Lookout will be completed.
- The trails Society (KCTS) recently announced that plans and funding have been finalized for completion of a family-friendly wide trail from the Biathlon area to Strawberry Pass. This is a major project contemplated for 20 years or so. In future we will be able to go on multi-use trails from Rossland to Strawberry Pass.

Please remember to maintain social distancing, stay safe, and enjoy our wonderful Rec Site.
