

**GREETINGS TO ALL AND WE HOPE
THAT EVERYONE IS SAFE AND
HEALTHY**

- The Rec Site is open and very busy, but per RS&T guidelines the cabins remain CLOSED except for emergency use only. Please respect the closure.
- FORRs pays a contractor to plow almost all the lots used for Rec Site parking. The highway contractor – YRB – helps plow too once the highways are cleared. Donations are needed to ensure timely plowing for safe parking. Please help. You can donate at the Main Kiosk or www.rosslandrange.org
- Igloo Cabin is complete. Great work by Pete, Dolf and entire crew of volunteers, well done.
- Crowsnest Cabin has been prefabbed and will be built next summer by Les and crew.

- The Accessible Trail was completed in October. The ramp to the Booty cabin has been stored for the winter. The trail makes for a very gentle ski or snowshoe. See the drone video by Kyle Hahn on our website or click [here](#), well done.
- Down-skiing routes were thinned this past summer to enhance the down skiing.
- Dog owners: if your dog does their “business” on the trail, please remove it for the benefit of all users

The Rec Site is funded by grants and donations: go to www.rosslandrange.org, drop off at L. J. van der Ham Accounting in Rossland, mail, or use Donation Box beside kiosk at main parking lot. \$20 or more receive a tax receipt (be sure to - provide contact information). We thank you for your generosity.

Please remember to maintain social distancing, stay safe, and enjoy our wonderful Rec Site.
